
Our Precious Memories in Junior High School

Today, we graduate from Joshiseigakuin junior high school. We have made many memories. Do you remember your school life? I want to tell you about my memories and I'll be happy if this speech helps the people who hear it to enjoy each moment of every day.

We entered this school three years ago. I remember I was very nervous at first, but became comfortable a few days later. We had a good time at the sports day. Then at Green School we were able to notice each of our characters. For example, someone who laughs a lot, someone who eats a lot and so on. We started to find our talents then. It was very fun for three days. We also enjoyed the school festival for the first time. Sometimes we had a fight preparing for the choir contest, but when we solved the problem with friends, I felt like we got closer.

My best memory from second year is doing club activities. I belong to the badminton club. I went to badminton training camp in summer for the first time. It was very hard, but I made a lot of great memories. I can do my best because I have my club friends. I'll never forget these memories.

My best memory from 3rd year is the school trip. We went to Hokkaido. We enjoyed learning, playing, and traveling a lot. And more than anything I enjoyed spending time with my friends. I also went to Cebu to study English. I met some poor children that have big dreams. I was moved by them. So, I want to challenge to do anything that I can in high school.

We have worship every day. I realized there are many blessings that come from that time. Worship gives us a chance to reflect upon ourselves and our lives.

Our Precious Memories in Junior High School

I have some advice for underclassmates. These three years I enjoyed lunch time because I could talk with my friends. It is an important memory for me. It's fun to share a meal with friends. And food tastes better when we eat with friends. Time flies when you are having fun, so please enjoy each moment of your every day lives. For classmates, we will be high school students. We must use our gifts when we are preparing school events and clubs. Let's make use of our talents.

Finally, I want to thank my parents, teachers, and all of the people who helped us. I'm grateful to all the people who supported me. Thank you.
